Part A – Process reforms

A1. Registration

#	Recommendation of the Council	Provision / form (colour = route to law)	What it means for clients
1	Streamlined registration: comprehensive circular on documents and FAQs; drop-down choices in the application; user-friendly portal with tool-tips.	Circular; FORM GST REG-01; Rule 14A	Fewer rejections and clarification queries at the registration stage.
2	Amendment of registration: automatic acceptance of all particulars except the principal place of business (PPOB). Taxpayers on the rule 14A automatic route also get PPOB auto-accepted.	Rule 19, CGST Rules	Routine changes need no officer action. Keep registration particulars current.
3	Cancellation on application. Phase 1: REG-16 auto-accepted once returns are filed and dues paid, where ITC passed on never exceeded ₹2.5 lakh in any month, or GSTR-10 is filed in time. Phase 2: all REG-16 applications auto-accepted, with GSTR-10 details furnished in REG-16.	FORM GST REG-16; GSTR-10	Exit becomes faster. Final-return and dues discipline still decides acceptance.
4	Officer-initiated cancellation: certain grounds omitted. System-based cancellation and revocation for non-filing of returns or non-furnishing of bank account details within a specified time.	Rules 21, 21A, 22; new Rule 23A	New automation risk: lapses in filing or bank details can trigger cancellation without an officer. Revocation time limits are yet to be specified.
5	Small sellers on e-commerce platforms: simple registration in States where they have no physical presence, by declaring the operator's warehouse as PPOB. ITC pass-on up to ₹2.5 lakh a month (excluding stock transfers). Automatic grant subject to conditions.	New Rule 14B	Lets small sellers sell across States without premises in each. Conditions are still to be notified.

Consultation and authorisation	The alternate amendment mechanism goes for public consultation. The Finance Minister is authorised to approve changes after feedback.

Part E – Reported in the press, not in the release summary

These items appear in news or professional coverage of the Finance Minister's briefing, but not in the release summary used for Parts A to D. Treat them as unconfirmed until the official text is checked.

Item	What was reported	Status
ITC when a supplier does not pay (s.16(2)(c))	A Committee of Officers to examine protection for a genuine buyer who has an invoice, received the goods and paid in full. Study reported within about three months.	Press / briefing. Study only, not relief.
Motor-vehicle ITC under s.17(5)	Relaxation reported as deferred after concerns raised by States.	Press. Existing rule continues.
Rate-change cadence	Council to consider rate changes once a year, effective 1 April.	Press (PTI, Tribune).
Faceless administration	Centralised faceless CGST framework for multi-jurisdiction taxpayers, with public consultation before the next Budget. Implementation targeted for FY 2027–28.	Press (Taxscan, Outlook).
“3 working days” for 90% refunds; “65%” auto-approved amendments	Specific figures that appear in some press coverage but not in the release summary.	Not used in this note.

Part F – Six things being misreported

Press and social coverage of this meeting has mixed up several points. Here is what the release summary actually supports.

	You may have seen	What the release summary supports
1	“Arrest powers scrapped, so no prosecution.”	Arrest provisions are to be withdrawn by omitting s.69. Prosecution continues above ₹5 crore and for fraud, with s.132 narrowed. Nothing changes until the Act is amended.
2	“No rate changes at all.”	The slabs are unchanged, but there are targeted items: 5% without ITC on e-commerce delivery, optional 5% for EV passenger transport, nil for psyllium, scrap under reverse charge with 2% TDS.
3	“90% of refunds in 3 working days.”	90% of zero-rated and inverted-duty refunds are provisionally sanctioned automatically on risk evaluation. A 3-day figure does not appear in the release summary.
4	“Minimum punishment removed, courts decide.”	The summary shows rationalisation of punishment under s.132 and removal of the ₹10,000 minimum penalty in non-fraud cases under ss.73 and 74A. These are different things.
5	“Prosecution limit raised to ₹10 crore.”	The figure is ₹5 crore, up from ₹1 crore.
6	“ITC is now allowed on insurance, towers and catering.”	It is a recommendation to amend s.17(5), “inter alia”, with conditions and effective date not stated. Earlier ITC stays blocked for refund purposes.

Part G – Practical points for practitioners

- **Recommendation is not law.** Arrest (s.69), prosecution (s.132), penalty (s.125) and blocked credit (s.17(5)) need amendments to Central and State GST laws. Advise clients on current law until then.
- **Criminal exposure narrows.** With the ₹5 crore threshold and a narrower s.132(1)(c), most disputes shift to civil adjudication. Fake-invoice ITC remains the enforcement focus.
- **Review the litigation inventory.** Check pending notices and appeals under ₹10,000, the 5% reduced penalty, the “charge” treatment for voluntary payment and pre-deposit planning where only penalty is in dispute.
- **Notice validation clause.** It seeks to cure notices held invalid for covering several financial years. Expect challenge and preserve objections.
- **Compliance becomes system-driven.** IMS, rules 86C and 86D, and rules 61(1A) and 61(1B) link GSTR-3B closely to GSTR-1 and GSTR-2B from the April 2027 return. Add monthly reconciliation, IMS credit-note handling and RCM tracking to client calendars.
- **Refund cash flow.** 90% provisional sanction, removal of the 1.5x cap and ITC refunds on input services and capital goods help exporters and inverted-duty sectors. The cut-off dates are prospective.
- **E-commerce and logistics.** Delivery at 5% without ITC, rule 14B and the end of transit-State interception affect pricing, registration strategy and detention disputes.

- **Watch for these when notified:** conditions and dates for the s.17(5) relief; scope wherever “inter alia” is used; whether the SEZ/FTWZ explanation and the s.13(3)(a) omission are retrospective; and how the 5% reduced penalty interacts with fraud cases (excluded).

Part H – Basis of preparation and verification

Basis. This note was prepared from published practitioner summaries that state they follow the PIB release dated 8 October 2026 (PRID 2320934), cross-checked against press and professional-site coverage. The PIB page itself could not be opened during preparation.

Check against the PIB text before relying on: (1) the wording of the ₹10,000 notice threshold (“less than” or “of”); (2) the exact s.17(5) list, conditions and effective date; (3) the e-commerce delivery entry and the EV option conditions; (4) the rule numbers and forms in A1 and A2; (5) the 5% reduced-penalty conditions.

Disclaimer. This note summarises recommendations of the GST Council for general information. It is not legal or tax advice, and it does not represent the views of the GST Council or the Government. The recommendations take effect only through the relevant circulars, notifications and law amendments. Verify against the final legal instruments before acting.
